Your Team

"As a gardener, I've poured myself into every flower bed and winding path in this once overgrown patch.

When you hire Samsara Retreat as your healing space, I implore you to view my garden as another room for you to use - no matter the weather.

Shoes off, bare feet on the ground - rooted, planted and strong - and at oneness with Gaia"

Lori **Founder & Retreat Host**

Many years spent guiding businesses and building her own, Gemma is our lighthouse. With a vision to create a truly inclusive retreat space that welcomes all. As a mother to her son and wife to her husband Alister living with MS, accessibility and family experiences are a huge part of our new journey here at Samsara Retreat Bromsgrove - and it simply wouldn't be possible without Gemma.
